

Director Development Programme

Working with you

Through this programme we will work with you, the owner/director, to get you all set to take the lead and drive your business forward. We will help you to:

- clarify what you are aiming to achieve for yourself and for your organisation
- recognise your strengths and development needs
- identify your personal development priorities and goals
- find ways to achieve the results you want through your people
- develop your leadership and management skills and knowledge
- improve organisational performance and achieve your goals.

How it works

We'll design a bespoke programme to meet your individual needs, incorporating the right combination of these elements:

- Planning sessions: meetings to analyse your role within your business, and to identify the skills you need to move your business forward.
- Coaching sessions: sharing our knowledge of best practice, giving you tools, techniques and resources and building your confidence to lead your team and manage your business.
- Ongoing support: we'll be available by telephone and email to keep you on track.

What it costs

The programme costs £3,000 plus VAT. We are happy to agree a payment schedule to suit your programme.

About us

Cygnets Business Solutions Ltd is an independent consultancy practice based in Canterbury and working across London and the South East.

- We specialise in delivering measurable performance improvement at organisation, team and individual level.
- We are able to apply our broad base of knowledge and experience to a wide range of business situations, to deliver creative and effective solutions.
- We work with senior management teams to develop strategic direction and plan for business success.
- We work with managers and teams to implement plans and achieve operational performance improvement.
- We work with individuals at all levels to build confidence and increase motivation.

Next steps
