

# Partnership Support Programme

---

## Working with you

How reassuring would it be to know that you have your own business consultant on hand to help with those unexpected situations or difficult decisions? Through this programme your nominated business consultant will work as a business partner, providing you with business advice and support throughout the year.

## How it works

You choose the level of support you want and how you want to use it – typical activities include:

- attending regular board or management meetings
- MD mentoring sessions – face-to-face, by phone or Skype
- ad hoc support by telephone or email.

## What it costs

The annual cost of your programme will be determined by how you want to work with your consultant and what activities you choose to include. The cost will then be calculated based on the annual number of hours, using the table below.

Hours	Cost (excluding VAT)
12	£1,145
18	£1,670
24	£2,165
30	£2,650

## About us

Cygnets Business Solutions Ltd is an independent consultancy practice based in Canterbury and working across London and the South East.

- We specialise in delivering measurable performance improvement at organisation, team and individual level.
- We are able to apply our broad base of knowledge and experience to a wide range of business situations, to deliver creative and effective solutions.
- We work with business owners and senior management teams to develop strategic direction and plan for business success.
- We work with managers and teams to implement plans and achieve operational performance improvement.
- We work with individuals at all levels to build confidence and increase motivation.
